Premium rates are based on the following underwriting factors:

- Plan design;
- Plan demographics; and
- Analysis of previous claims experience.

Premium rates may be changed on any premium due date after the initial premium rate guarantee ends. Premium rates may also be changed at any time for reasons which affect the risk assumed, including but not limited to any of these:

- A change occurs in the policy design.
- The number of insured persons changes by 15% or more.
- A new law or a change in any existing law is enacted which applies to the policy.
