

Accident Insurance

Help minimize the financial impact that can come with an accidental injury

What is it?

Accident Insurance pays you benefits for specific injuries and events resulting from a covered accident. Accident Insurance is a limited benefit policy. It is not health insurance, and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

Who can be covered?

You have the option to enroll yourself as well as your spouse and children in Accident Insurance coverage to meet your needs.

*The use of "spouse" in this document means a person insured as a spouse as described in the certificate of insurance or rider.

**The definition of "child" may vary by state. Please contact your employer for more information.

Why should I consider it?

Benefits will be paid directly to you to use for any purpose, such as paying out-of-pocket medical expenses, copays, deductibles, groceries, gas, utilities and more – it's up to you.

Coverage is always guaranteed issue.

Your coverage can go with you if you leave your employer or retire, and you'll be billed directly.

Wellness Benefit

Your coverage includes a Wellness Benefit, which will pay you and covered family members an annual benefit if they complete an eligible health screening test. These screenings may include a mental health screening, flu immunization, a mammogram and a routine eye or dental exam.

\$50 for employees

\$50 for spouse

\$50 per child (100% of your benefit amount)

² Complete separated joint that does not require a surgical repair. If you receive more than one dislocation in the same covered accident, a benefit is payable for all dislocations. However, the benefit amount will be no more than two times the benefit amount for the joint involved which pays the highest benefit amount. Other limitations and maximums may apply.

⁴ Fracture that does not require a surgical repair. If you receive more than one fracture in a covered accident, a benefit is payable for all fractures. However, the benefit will be no more than two times the benefit amount listed for the bone which pays the highest benefit amount.

⁵ Fracture that does require surgical repair. If the doctor diagnoses the fracture as a chip fracture, the benefit will be reduced to a percentage of what would have been paid for a Non-Surgical Repair Fracture of the same bone. If you receive more than one fracture in a covered accident, a benefit is payable for all fractures. However, the benefit will be no more than two times the benefit amount listed for the bone which pays the highest benefit amount.
