Finding the right asset allocation

Now that you've chosen to purchase the Voya Select Advantage IRA, it is important to think about how to allocate your investments. To simplify this process, Voya offers this simple assessment to help determine your risk tolerance and what type of portfolio may be best suited for you.

Voya Select Advantage IRA is a mutual fund custodial account designed for your retirement assets. It works similar to the retirement plan you may already be familiar with using – you pick your mutual fund choices from a predetermined list of options and see the potential progress of your investments on your quarterly statements or by going online. With over 100 funds from over 25 well-known fund managers, you can pick the investments that make the most sense for you.

With Voya Select Advantage IRA, you will gain access to well-known fund managers and be able to invest across mutual fund families. This allows you to benefit from each fund manager's individual strengths. And if you choose to change your investment option decisions down the road, there is no charge for transactions, even between fund families.

This material must be preceded or accompanied by a current prospectus for mutual funds offered through a retirement plan.

Time Horizon

- 9** In how many years do you plan to utilize the results of your investment strategy?

 - A** More than 15
 - B** More than 10
 - C** More than 5
 - D** Less than 5
- 10** I am comfortable with an investment that may take 10 years to provide the returns I expect.

 - A** Strongly agree
 - B** Agree
 - C** Disagree
 - D** Strongly disagree

Scoring the Risk Assessment Questionnaire

Answers are assigned points as follows:

A=4 B=3 C=2 D=1

The assigned points are tallied for each question. Once all questions have been answered then the question totals are aggregated and mapped to one of five corresponding portfolio models: Conservative, Moderate Conservative, Moderate, Moderate Growth, or Growth.

Questionnaire Scorecard:

1 2 3 4 5 6 7 8 9 10

Add the above values for your risk assessment score = _____

The scoring methodology below focuses on four key aspects of an investor's risk tolerance – their time horizon, specific investment goals and objectives, capacity for and attitude toward risk, and level of financial sophistication.

| Score | Corresponding Portfolio Model |
|-------|-------------------------------|
| 10-16 | Conservative |
| 17-22 | Moderate Conservative |
| 23-27 | Moderate |
| 28-33 | Moderate Growth |
| 34-40 | Growth |

All investments carry a degree of risk and past performance is not a guarantee of future results. Generally, the greater an investment's possible reward over time, the greater its level of price volatility, or risk. Investments are not guaranteed and are subject to investment risk including the possible loss of principal. The investment return and principal value of the security will fluctuate so that when redeemed, may be worth more or less than the original investment.

Voya Institutional Trust Company is the custodian for IRA mutual fund custodial accounts distributed by Voya Financial Partners, LLC (member SIPC) or other broker-dealers with which it has a wholesaling or selling agreement.
